Agencies purchase job slots, which gives you even more flexibility in your advertising.

Example: Say you purchase 25 job slots for £200, with a 3 month duration. You get 25 job slots at any one time. So if you fill a vacancy, you can simply replace it with another job advert. You are NOT limited to 25 adverts.

So if you purchased the package used in the example above, and you had an average job posting period for each vacancy of 1 month, you could technically have 75 job adverts within the 3 month period, more if your positions are filled quicker.

- 1 Job Ad, 3 month duration, £20
- 5 Job Ads, 3 month duration, £75
- 10 Job Ads, 3 month duration, £150

Unlimited Packages - Single Office

Single Office Packages are for Agencies or Associates of Agencies, who wish to advertise from one particular location, offices are defined by the company's own website listing of offices, or who have only 1 office location.

Agencies can only advertise jobs with contact details for either the employer direct, or to their DealerJobs.co.uk registered office.

If you are an Agency who wishes to advertise vacancies, with multiple application destinations, offices in other locations etc, you must purchase the Multi Agency Packages or Standard Packages.

Any abuse will see your package use investigated and may lead to termination, any postings you have made will be classed as single job ads at the standard rate of £20.

Any monies due back to you will be processed and returned. We reserve the right to take legal action to recover monies owed to us, in the eventuality your package purchase price does not cover the ads already placed by you.

If you give access to other members of your team, please make them aware of the implications of sharing user names and passwords with other office locations.

Multi Office Packages are for Agencies who trade from several geographic locations, offices in different Towns etc. It is in the interest of Multi Agency Package users to keep an eye out for unauthorised ads using their user name and password. **Regular** password changes are recommended, especially after a team member leaves.
