Single Business/Location Packages are for a Business or Dealer with only 1 Location, locations are defined by the company's own website listing of offices and locations, or who have only 1 business location.

Businesses can only advertise jobs with contact details for either their Agent handling their recruiting, or to their DealerJobs.co.uk registered Business name.

If you are a Business who wishes to advertise vacancies, with multiple application destinations, offices/businesses in other locations etc, and are using an UNLIMITED package, you must purchase the Unlimited Multi Business Packages and not the single Unlimited Business or Location Package.

Any abuse will see your package use investigated and may lead to termination, any postings you have made will be classed as single job ads at the standard rate of £20.

Any monies due back to you will be processed and returned. We reserve the right to take legal action to recover monies owed to us, in the eventuality your package purchase price does not cover the ads already placed by you.

If you give access to other members of your business, please make them aware of the implications of sharing user names and passwords with other office locations.

Unlimited Multi Business/Location Packages are for Businesses and Dealers who trade from several geographic locations, offices/dealerships in different Towns etc. It is in the interest of Multi Business/Location Package users to keep an eye out for unauthorised ads using their user name and password. **Regular** password changes are recommended, especially after an authorised team member leaves.
